From the very beginning, Mustafa has been incredibly kind, professional, and supportive. He helped me with my student accommodation, explaining everything in detail and guiding me through each step of the process with patience and care. He was always available, answered all my questions very quickly, and made sure I felt reassured at every stage.
As a student, this level of support truly meant a lot to me. He is without a doubt one of the best people I have ever met in a professional context.
I am extremely grateful to Mustafa and the Londonist team for their outstanding service. I would highly recommend Londonist to any student looking for reliable and caring accommodation support in London.

I've used Londonist Accommodation a few times over the past 1–2 years for short stays. I stayed at the King's Cross location and was especially happy with the studio rooms. Having essentials like towels, basic kitchen items, toiletries, and even some small food supplies ready on arrival is a really thoughtful touch. Overall, it's a comfortable, well-organised, and hassle-free experience.

I've stayed here before and once again I'm genuinely so happy with my experience. The staff are incredibly attentive and helpful — you can really feel that they care. The location is amazing, very close to the city centre, which makes everything super convenient. The rooms are so comfortable and well-equipped — honestly, everything you might need is already there.
It only took me about an hour to feel completely at home. That says a lot 🤓 It truly feels less like student accommodation and more like a cozy, safe home.
I would definitely stay here again without hesitation!

# Thank you !

Just moved into my student accommodation with Londonist DMC, and the process was great thanks to Haylie. She was incredibly helpful and patient, answering all my questions (and I had a lot!). She went above and beyond to make sure I felt settled and welcome. It really makes a difference when staff are so genuinely kind.
