To Whom It May Concern,

I have known Havva Yasir during her studies at Boğaziçi University in the summer semester of 2024 as a special undergraduate student. She has a GPA of 4.00 in the courses she took at Bosphorous University.

Boğaziçi University is acknowledged as one of the best universities in the country, if not the best one. Students can get a chance to enter a university in Turkey through a very rigorous Central University Entrance Examination. Boğaziçi University only accepts those who rank in the first percentile. Medium of education at Boğaziçi is English.

During her studies at the Department, Havva took my EI48R-Risk Management in Financial İnstitutions as a summer course. She had an outstanding performance and she completed the course at the top of the class with an AA grade. I attribute it to the fact that she had a deep interest in the subject and enjoyed it thoroughly and got a lot out of the course.

I always thought of Havva as a responsible and hardworking student. She has a very high level of motivation and determination. She also has a high capacity for analysis, synthesis, and communication both in written and oral English. Besides her academic characteristics, she is a very courteous and considerate person with a pleasant and warm character.

I am certain that she has the potential and the determination to succeed in any academic and business work environment.

Being sure of her academic potential, study habits and her determination I strongly recommend Havva as an intern in your company.

Sincerely,

Prof. Dr. Mustafa Akan

Professor of Industrial Engineering
