Subject: stuff missing from my room

Dear sir/madam,
I had booked my room 7.6.3 at chapter aldgate through londonist. My lease is till 26th July and I had not checked out on the app. I had left my stuff in my room and my relative was supposed to com
up. I had mailed chapter aldgate about it and got a confirmation regarding the same. Today my relative had come to pick my things from there but they have misplaced most of the stuff and have ask
contact Londonist. Please let me know what is to be done now.

I am also attaching a photo of my stuff. Out of which I only got one box.

As per the terms of my lease, my tenancy is valid until 26th July 2025. I had also informed the Chapter team in advance that some of my belongings were st
room. Given this, I believe there should have been no entry into my room or movement of any of my possessions without my prior consent.

I trust you understand the importance of respecting residents' privacy and tenancy agreements, and I look forward to your prompt response and resolution of this matter.

Thanks
Paridhi
